

Hello,

As soon as I saw your position as a React Frontend Developer, I knew it was perfect position for me. I have a BA in Communication studies and a broad international experience, Canada, Chile, Belgium, and the Netherlands, I enjoy learning from people of different cultures. With solid language skills, I speak 4 languages fluently, Spanish, English, French and Italian. I am flexible and adaptable to dynamic working environments. Front End Developer who enjoys taking on new challenges and learning new things everyday.

About my technical skills, although my junior profile, I have a strong knowledge base in HTML, CSS, Javascript, SASS, GIT, REACT. I am a quick learner and I am up to learn any technology or framework. During my bootcamp in Adalab I worked using agile methodologies, SCRUM in particular, therefore I am familiarize with this approach. In addition, I took some design courses with The interaction Design Foundation: Become a UX Designer from Scratch, Information Visualization and How to Design for Augmented and Virtual Reality.

Currently, I am settling in Barcelona and I think working for Xing is a great opportunity to grow as Front-End developer. I can contribute to this company with a great attitude to learn and my hard work. I appreciate your consideration and look forward to hearing from you.

Kind regards,

Inmaculada Salcedo González.
